

Consent & Release Agreement

This form is designed to give information needed to make an informed choice of whether or not to undergo a Microblading, 3D Brow semi-permanent makeup application. If you have any questions, please don't hesitate to ask. Although Microblading/Eyebrow Embroidery is effective in most cases, no guarantee can be made that a specific client will benefit from the procedure.

Microblading is the process of inserting pigment into the basal layer of the epidermis. It is a form of tattooing, though semi-permanent. All instruments that enter the skin or come in contact with body fluids are disposable, and disposed of after use. Cross contamination guidelines are strictly adhered to. Generally, the results are excellent. However, a perfect result is not a realistic expectation. It is usual and advised to expect a Touch-Up after healing is completed. Initially the color will appear more vibrant or darker compared to the end result. Usually within 5-7 days the color will fade 40-50%, soften and look more natural. The pigment is semi-permanent and will fade over time. Additional Touch-Ups are likely needed within 6 months to 2 years.

Photography Release Consent

We would like your permission to use these photos for advertising. For example: Portfolios, online and print ads, etc. Your consent is necessary regarding this.

Please circle and indicate with your signature if you would like your photos used or not used in advertising.

Yes, feel free to use them

No, please do not use them
